

According to Allergy UK, we spend around 90% of our time indoors. But our indoor spaces can be as much as **10 times more polluted** than the air outside.

It's only natural to want the reassurance of working in an environment that's both **clean** and **healthy**. And now you can provide just that.

Breathe easy with Daikin's powerful range of air purifiers.

Our air purifiers guarantee up to **three times cleaner, fresher air**. So you can feel safe in the knowledge that pure air is paramount in your facility – for staff and service users, alike.

Pure air, because we care

With any Daikin air purifier, we promise you air that is cleaner, fresher and healthier.

Our unique air purifying technology is designed to protect you and the people you care about most, in whatever environment an extra level of care is needed.

There's no compromise on sustainability and energy efficiency – just optimum performance at a minimum cost.

A safer, cleaner workspace

Daikin air purifiers

You're safe in our hands

We know **health and wellbeing** is your number one concern. And when it comes to the most vulnerable – the very young, elderly or those with chronic health conditions – extra peace of mind pays dividends.

Daikin's patented streamer technology makes our range of air purifiers some of the most powerful on the market.

Streamer technology has been proven to inactivate more than **99.9% of the novel coronavirus***, while eliminating other dust, bacteria and pollutants from your environment. Plus, our electrostatic HEPA filters make our purifiers resistant to clogging, so they can **filter and clean more air, more quickly**.

Daikin air purifiers have the **Allergy UK Seal of Approval** for their efficiency, eliminating **all the most common airborne pollutants** from your workplace.

- › **Bacteria and viruses** – including up to 99.9% of coronavirus* particles
- › Contamination from **sneezing and coughing**
- › **Dust, allergens and debris** from building materials
- › **Odours and vapours** from cleaning products
- › Outdoor pollution, including **pollen and traffic fumes**

* Source: Study report on the inactivation effect of plasma ion generator (Daikin Streamer) on SARS-CoV-2 by Shigeru Morikawa, Department of Veterinary Medicine, Microbiology Course, Okayama University of Science.

Please note: A Daikin air purifier is not a substitute for safety measures including smoke and heat detectors and carbon monoxide monitors. Please consult your facility's health and safety guidance. A Daikin air purifier may not be suitable for extracting odour components emanating from continuous sources – please email airpurifier@daikin.co.uk for more information.

Our air purifiers deliver more than just effective cleaning: they're compact and quiet for a seamless fit into your workspace.

That means no complex setup process. No complicated programming. Just a cleaner environment and added peace of mind for everyone. So you can focus on what really matters to you – **your service users' wellbeing**.

Daikin Air Purifier High performance, low maintenance

The perfect fit for waiting rooms, treatment rooms, offices and hallways, the Daikin MC55VB Air Purifier has been designed for near-silent but powerful cleaning capability – all in a compact unit.

- › Whisper-quiet powerful filtration for spaces of **up to 41m²**
- › Compact, space-saving design
- › Powerful suction, for **fast, efficient air purification**
- › Up to **10-year lifespan** on dust filters
- › No complicated cleaning – simply use a vacuum or damp cloth

Economical and efficient
Our units cost just 2.3 pence per day to run

Daikin Humidifying Air Purifier Reliable and efficient purification

Exceptional cleaning for care homes, treatment rooms and offices, the Daikin Humidifying Air Purifier is quiet but effective. Its superior performance eliminates the need to open windows and doors for fresh air – no more chills or draughts, just total peace of mind.

- › Simultaneous **purifying and humidifying** ability
- › Compact footprint and space-saving design
- › **Economical operation** – 'Econo mode' for budget-friendly performance
- › Up to **10-year lifespan** on dust and humidifying filters
- › Powerful humidification for extra protection from dry air and viruses
