

## COMMISSION WITH CONFIDENCE

TRIM CHARGE INCLUDED!

Daikin UK's Commission With Confidence service aim to bring stability and confidence to the market, which has experienced price turbulence for refrigerants since the quota reductions in 2018 set by the European F-Gas Regulations.

Commission With Confidence service includes refrigerant supply, system charging and commissioning assistance, all for a flat rate. So you can enjoy complete confidence, while ensuring your system is commissioned for maximum efficiency.

### **Confidence in supply**

Daikin is striving to reduce the CO<sub>2</sub>eq impact of our systems, so from 2019 the trim charge refrigerant we supply as part of our Commission With Confidence service will now be reclaimed refrigerant. This reclaimed refrigerant is certified to AHRI700 standard and therefore identical in quality to virgin refrigerant but it has much lower CO<sub>2</sub>eq emissions generated during manufacture and has zero impact on the F-Gas quota.

### **Confidence in simplicity**

Our options are transparent, regardless of VRV type.

### **Confidence in cost**

This fixed-cost commissioning service includes, as standard, the cost of charging the system with refrigerant gas. With the premium option, cloud set up and one year's monitoring is also included at a reduced rate. What's more, when quoted with us as part of your VRV project, these packages are guaranteed for a set time period (stated at the point of purchase). This will protect you against fluctuating prices between the time you quote, and the date given.

## TWO PACKAGES TO CHOOSE FROM. THE SUPPORT OF ONE TRUSTED SUPPLIER.

Our two service offerings are designed to give you VRV commissioning confidence. Choose from our Standard and Premium packages to enjoy additional security when pricing for installations and aftercare monitoring for your clients.

### Standard

#### COMMISSIONING SUPPORT CHARGING THE SYSTEM WITH REFRIGERANT

Use Daikin service on site to provide refrigeration system commissioning assistance with the supply of the R410A trim charge at a set fee. We'll undertake a visible system check and ensure your VRV successfully completes its test run and is fully operational.

### Premium

#### COMMISSIONING SUPPORT CHARGING THE SYSTEM WITH REFRIGERANT CLOUD MONITORING

Our Premium package offers commissioning assistance and trim charge just like the Standard service, plus cloud set up and monitoring for one year, all included in the price.

VRV system size	Standard service	Premium service
	Ex-VAT price (non-discountable) per system	Ex-VAT price (non-discountable) per system
Size 4 to size 16 horsepower (inclusive)	£990	£1,390
Size 18 to size 24 horsepower (inclusive)	£1,490	£1,890
Size 26 horsepower and above	£1,990	£2,390
Service includes		
Daikin service on site to assist with refrigerant system commissioning	Yes	Yes
All refrigerant required to cover trim charge for installation	Yes	Yes
Initial cloud set up	No	Yes
Energy and system monitoring for 1 year	No	Yes
1 annual monitoring report	No	Yes

Both services are available for you to quote now. Simply ask us to include these packages in your VRV quote, then decide later if it's the best option for you.
